

Technical Data Sheet

SO DIM 2

PVC FEATHER EDGE TRIM

Description

SO DIM 2 is a pvc, feather edge trim used to finish the raw, exposed edge of resilient floorcoverings and provide a safe transition to the sub-floor.

Suitable for use with resilient floorcoverings 2mm thick.

Typically used at the junction with terazzo or stone floors.

Installation

SO DIM 2 feather edge trim should be allowed to acclimatise for 24 hours prior to installation at an ambient temperature of 18° Celsius.

1. It should be ensured that all surfaces to which the profile is to be fixed are dry, flat and free from any contaminants.
2. Cut the trim to the size required.
3. Apply a proprietary contact adhesive to the underside of the trim and the floor
4. Allow the adhesive to become touch dry.
5. Abutt the SO DIM 2 up to the installed resilient floorcovering and firmly press into the adhesive

Cleaning and maintenance guidelines:

These guidelines have been compiled to help the user obtain optimum performance and satisfaction.

Preventative Maintenance Programme

- A regular scheduled maintenance programme should be employed to prevent the build up of dirt and grease, which will reduce the slip-resistant properties of the profile and detract from the overall appearance of the product.
- **NB. Under no circumstances should degreasers of any type and floor cleaners/sanitizers containing hydrocarbons or citrus based agents be used to clean the profile. Steam cleaners, power washers, floor sealants, polishes or any coatings should not under any circumstances be used on the profile.**

Daily Cleaning

- Brush down the profile using a soft bristled brush and remove dust particles by wiping with a damp cloth.

PVC Profile

- Stubborn marks such as boot blacking may be removed from the PVC profile by means of a green scotch pad and neutral detergent. After cleaning, dry thoroughly with a lint free cloth. Due to the physical properties of the PVC material, we strongly recommend that the green pad is changed regularly.

Technical Data	
Type:	Feather Edge Trim
Environment:	Interior
Used with:	Resilient Floorcovering
Material:	PVC
Width	26mm
Gauge:	2mm
Length:	15m Coils
Colour:	Black
Fixing:	Adhesive Fix
